

The painter Raymond Hommet has produced the paintings for the Eden Hotel & Spa\*\*\*\*

### BIOGRAPHY:

Raymond Hommet is a French artist born in Nice in 1966.

Following his Fine Art studies in Paris and training as a Tai Chi Chuan instructor (Chinese martial art), he produced three public works:

The creation of an 4x2m ornamental mosaic in the Louvre (Paris), a monumental sculpture for a memorial commemorating the deportation in the Essonne and an 850 m<sup>2</sup> mosaic fresco for the town of Saint Laurent du Var.

Raymond Hommet uses mainly drawings taken from travel diaries to create his paintings, screen prints, sculptures and mosaics...

He links art with movement, alongside his own personal research, which is aimed at understanding energy through a symbolism taken from ancient traditions.

In 2012, he completed a series of paintings for the Eden Hotel & Spa\*\*\*\*, a different one in every room and in the various corridors.

Here are some examples of his work.
